About SRM

Sustainable Resource Management Ltd is a multidisciplinary team of management consultants with wide experience in several aspects of economic assessment, environment management, health, water, infrastructure, safety and quality management systems. SRM holds a Pioneer Status Enterprise Certificate for the provision of consultancy services in the fields of Energy, Environment, Quality and Safety. We were incorporated in April 2000 and have since established an excellent track record in providing high quality professional consulting services.

Infrastructure and the Environment

We work closely with project promoters and the relevant authorities to find acceptable mitigation measures to reduce environmental impacts that may occur during construction, operation and decommissioning phases of projects. Our approach is inspired from life cycle assessment. Our track record in this area consists of the following projects/studies:

- Environment Information System for the Ministry of Environment
- Preliminary Environment Reports for Indian Oil Mauritius Ltd (7 Filling Stations)
- EIA for MMC International (Manufacture of Tile Adhesives)
- EIA for Italpro Wine Factory (Mauritius)
- EIA for Societe de l'Horizon for the construction of 83 luxury housing units at Bain Boeuf
- EIA for Les Entreprise Phi for the construction of 82 luxury housing units at Ebene (Ebene Views)
- EIA for filling stations by Caltex Mauritius Ltd

Economic Assessment

The driving force behind SRM's economic consulting services is strategic thinking for improved performance. SRM combines cutting edge thinking with the hands-on corporate and entrepreneurial experience of its partners and staff to provide unrivalled advice to its clients. Although the company's partners specialize in different areas all issues are addressed from a high-level, business perspective aimed at defining the client's strategic objectives and achieving improved performance. Our strategic consulting services are all tailored to each individual client or project and may range from a full strategic analysis and review to simply providing strategic advice. Our dedicated teams of economic consultants have considerable experience in socio-economic and developmental assessments. Our track record in this area consists of the following studies/projects:

- Economic Impact Assessment of the Plaines Wilhems (Mauritius) Sewerage Project for the African Development Bank
- Bagasse Cogeneration for Department of Energy, USA

- Electrification of Agalega Island for UNDP
- Regional Biomass Assessment for SOPAC, Fiji
- Domestic Energy Savings for Rodrigues – Phases I and II for the UNDP

Environmental Management

SRM has a multi-disciplinary team of environmental experts with wide experience in several aspects of environmental concern. Our involvement ranges from planning to minimizing impacts (EIA) at the beginning of a project to environmental control and remediation during operations and rehabilitation at closure. Our pioneering consultancy services in Environmental Management Systems are able to assist companies achieve ISO 14001 certification and Green Globe standards. Some of the completed projects include:
